To: The Honorable Kimberly D. Bose, Federal Energy Regulatory Commission, Washington, D.C.

Re: Docket # 15056-000, proposal of Premium Energy Holdings of CA to construct a power plant and reservoir near the Ashokan Reservoir in Ulster County, NYS.

DATE: February 28, 2021

COMMENT: Premium Energy Holdings' proposal to construct yet another reservoir in the Catskill Mountains of New York State is a bad idea. Once again, people will be evicted from their homes; tax money to the towns <sup>will</sup> decrease; rare plant species be lost; and lives and property downhill of the proposed reservoir be endangered. I, therefore, ask that you reject this proposal.
